

KURNELL COMMUNITY UPDATE

May 2025

Drop-in Session - Ampol Kurnell Energy and Industry Hub / Kurnell BESS

We are pleased to invite you to attend a drop-in session on Wednesday 7 May, from 3:30p.m. to 7:00p.m. at Marton Community Hall.

Additionally, we will share information about how we plan to work closely with the community to identify key priorities for support and investment through a Voluntary Planning Agreement.

It will provide an opportunity for you to:

- Learn more about the project and its objectives.
- Ask questions and provide your valuable feedback.
- Speak directly to members of the project team who will be on hand to discuss the proposal and listen to any suggestions you may have.

A BBQ and light refreshments will be provided at the session.

Heart Start Kurnell

To help build a safer and more prepared local community, Ampol is proud to announce the Heart Start Kurnell initiative.

Heart Start Kurnell is in response to a recent medical emergency in the area and highlighted the need for more accessible defibrillators and the importance of knowing how to provide CPR. We hope to equip residents with both the tools and knowledge needed to act quickly in an emergency.

The first public access defibrillator has been installed out the front of the Kurnell Post Office. The next unit will be located at the whale watching platform at Cape Solander in the Kamay Botany Bay National Park (Kurnell).

Community CPR training courses, in partnership with St John Ambulance NSW, will also be made available. These courses will be open to Kurnell residents, with costs being fully subsidised by Ampol to encourage participation.

The community CPR courses are being held at the Kurnell Stingrays clubhouse at Marton Park and will commence on the following dates:

Session 1 – Monday 2 June 6:00p.m. – 8:30p.m.

Session 2 – Monday 16 June 6:00p.m. – 8:30p.m.

To register your interest in attending, please scan the QR code and complete the form. Places are limited to 18 per session and we will contact you directly to confirm your place on the course. Additional courses will be provided throughout the year if required.

Ampol would like to acknowledge the Gweagal people as the Traditional Custodians of the lands where the Ampol Kurnell Terminal is located, and pay our respects to Elders past, present and emerging.

New footballs for Kurnell Stingrays

Ampol have donated close to 250 brand new Steeden footballs to the Kurnell Stingrays for use, in both training and on match days.

This contribution will help strengthen, sustain and grow local footy by ensuring players of all ages have access to high-quality equipment.

Kurnell Stingrays Sponsorship Manager, Simon Harvey welcomed the new footballs.

"We're incredibly grateful to Ampol for their ongoing support. Having access to quality footies makes a real difference for our players and coaches, and this goes a long way in helping us grow the club and keep kids involved in sport. The Stingrays play such an important role in bringing the community together, and Ampol's support helps us to achieve this."

We are passionate about supporting the communities we operate in, and we wish all the Stingrays teams the best for the remainder of the season.

NSW Rural Fire Service site tour

The Ampol Kurnell Terminal recently hosted the NSW Rural Fire Service on a site tour.

Officers from the Kurnell and Grays Point brigades attended along with a District Group Officer.

It provided a valuable opportunity to become familiar with the site layout, discuss first response actions in the unlikely event of an incident, and understand site considerations.

Odour

Ampol acknowledges that following recent heavy rainfall, a section of the community was impacted by our operations.

We have commenced fresh investigations to try and identify the cause. We take community odour concerns seriously and will provide updates as more information becomes available.

We apologise for any inconvenience and thank you for your patience and understanding.

Terminal siren

Our siren is tested everyday at 12noon with a 1 x 10 second blast, and 2 x 10 second blasts on Mondays.

The siren is for on-site personnel only and people in the community do not need to take action.

In the event of a major incident that has potential to impact the community, Ampol will provide initial alerts and information via its community notification platform. Residents are advised to always follow any direction from emergency services.

To subscribe to the platform, scan the QR code below and complete the form, or forms are available at Kurnell Village Post office.
