

KURNELL COMMUNITY UPDATE

March 2026

Mod-7 drop-in session

In May 2025, Ampol lodged a seventh modification (Mod-7) to the Kurnell Refinery Conversion Project. The modification was to further consolidate operational infrastructure, remove redundant assets and undertake remediation. The Modification Report was placed on public exhibition in July 2025.

We made a number of recent changes to the project and carried out some additional assessments to support the proposed work.

Ampol submitted the Mod-7 Submissions Report to the Department of Planning, Housing and Infrastructure in early February, and it will be available on their planning portal when they complete their review.

We are holding a Community Drop-in session on 5-7pm, 11 March 2026 at Marton Community Hall. At this session find out how we have responded to submissions received on Mod-7, changes we have made, additional assessments undertaken, and talk to our team and ask questions.

At the Drop-in session, we will also provide the community with an update on the KEIP environmental assessment.

We look forward to seeing you there.

We are holding an information session and invite you to attend to learn more about the Mod-7 application and possible Kurnell Energy and Industry Hub.

5:00pm - 7:00pm
Wednesday 11 March
Marton Community Hall
92 Captain Cook Drive, Kurnell

Red Bull Ampol Racing Supercar promotion

Ampol recently welcomed the winners of the Red Bull Ampol Racing Supercar experience promotion at Sydney Motorsport Park.

As well as race day entry, the winners were provided with an exclusive tour of the Red Bull Ampol Racing team garage on race day.

The behind-the-scenes access showcased the garage set up, race preparation and roles that support the cars on the track.

It was a strong weekend for the team with driver Broc Feeney winning two of the three races.

Ampol would like to acknowledge the Gweagal people as the Traditional Custodians of the land where the Kurnell Terminal is located, and pay our respect to Elders past and present.

Shark bite kits

Ampol has installed five shark bite kits along the Kurnell coastline as part of the organisation's ongoing commitment to building a safer, resilient and more-prepared local community.

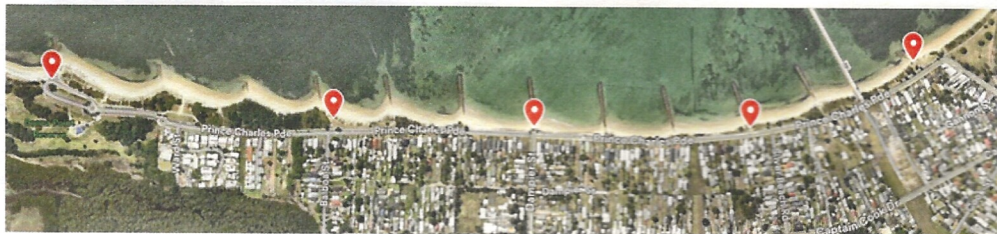

The initiative, supported by the Sutherland Shire Council, is in response to increased shark activity in the Kurnell peninsula.

Shark bite kits have been installed by Ampol at five easily-accessible locations along the Kurnell coastline, and complements existing emergency systems in the area.

The shark bite kits will be located at **Bonna Point Boat Ramp and beach access points opposite Balboa Street, Dampier Street, Silver Beach Road and near Captain Cook Drive**, and will include a tourniquet, pressure bandages and clear step-by-step instructions to support bleeding control.

"Ampol's focus is to enhance community safety, and we see the installation of these shark bite kits as a practical safety measure for residents and visitors to Kurnell beach," Ampol Community Engagement Manager Daniel Scully said.

"We want people to have access to simple equipment that can make a difference during an emergency. The immediate management of blood loss in major shark incidents is vital in giving victims the best possible chance of survival, where minutes and seconds count."

Shark bite kits have been installed at the locations highlighted on the map above

Wharf maintenance

We are about to commence scheduled maintenance of assets and infrastructure that are located on the Ampol Wharf.

You may notice a large crane on the wharf and there will be a minimal amount of truck movements to and from the wharf.

All work will be carried out during standard working hours and we don't envisage any disruption to the local community.

This important work supports the safe and reliable operations on the Ampol Wharf.

TERMINAL SIREN:

Our siren is tested everyday at 12noon with a 1 x 10 second blast, and 2 x 10 second blasts on Monday. The siren is for on-site personnel only and people in the community do not need to take action.

In the unlikely event of a major incident, that has potential to impact the community, Ampol will provide initial alerts and information via its community notification platform. Residents are advised to always follow and direction from emergency services.

To subscribe to the platform, scan the QR code below and complete the form, or forms are available at the Silver Beach Cafe and Post Office.
